## WHERE CULTURE GOES TO DIE

On the edge of an urban world filled with botox, toy poodles, and type-A personalities, lies a forgotten place where culture goes to die.

The Birthplace of the “Bro”

True plateaus of human evolution...

Somewhere East... very East of Los Angeles is the 909 — an entire area code devoted to people without ambitions, educations, jobs, or plans. The 909 does not see color or creed, just poverty and missed opportunities. Meth labs, home invasions, UFC training centers, teen pregnancies, outlet malls, off-road racing, strip clubs, paint ball, welfare checks, and underaged drinking are all part of *le dirt people joie de vivre*. But for a small few, it's a wake up call “graffiti-ed” on the rocks of Joshua Tree.

## MOVIE NIGHT
